#### Astonishing Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one tottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers n the United States and Canada.

#### Merit Will Tell.

Was never better demonstrated than when "Fryer's Abletene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietine Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

### The Perfection.

Of the age in the medical line is the liquid fruit remedy, Syrup of Figs, manufactured only by the California Fig Syrup Co., San Francisco, Cal. It is agreeable to the taste, acceptable to the stomach, harmless in its nature, painless yet prompt and through in its action. For sale by Wm. Pinniger, Reno. Nevada. Reno, Nevada.

Fryer's Abietene Cough Balsam-A combination of the Gum Abietene, Yerba Santa and Mullein, is guaranteed to cure Coughs, Colds and all Lung Diseases. (It contains no Opium.) Price, 75 cents. A Sea-Sick Passenger,

A Sca-Sick Passenger,
On the ocean cares little about a storm. He is positively indifferent whether he is washed overboard or not. But, set right by a winesia-siul or two of Hostetter's Stomach Bitters, he feels renewed interest in his personal safety. This fire corrective neutralitizes in brackish water-often compulsorily drank on shipboard, to the grevious detriment of health—the pernicious impurities which give rise to disorders of the stomach, liver and bowels. To the mariner, the tourist, the Western picneer and miner, the Bitters is invaluable as a means of protection against malaris, when its seeds are latent in the air and water. To the effects of overwork, mental or manual, it is a most reliable antiotote, and o the debilitated and nervous, it affords great and speedily felt relief and vigor.

#### Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danperimenting when your lungs are in danger. Consumption always seems at first,
only a cold. Do not permit any d-aler to
impose upon you with some cheap imitation of Dr. King's New Discovery for consumption, coughs and colds, but be sure
you get the genuine. Because he can
make more profit, he may tell you he has
someting just as good, or just the same.
Don't be deceived, but insist upon getting
Dr. King's New Discovery, which is guaranteed to give relief in all throat, lung
and chest affections. Trial bottle free at
S. J. Hodgkinson & Co.'s drug store.

Don't Trifle with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

#### W. PINNIGER, Druggist. Saved His Life.

D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years, badly afsays he was, for many years, badly afflicted with phthisic, also diabetes; the pains were almost unendurable and would sometimes almost throw him into convutisions. He tried Electric litters and got relief from the first bottle, and after taking six bottles, was entirely cured, and had, ained in flesh 18 pounds. Says he positively believes he would have died, had it not been for the relief afforded by Electric Bitters. Sold at 50 cen's a bottle by S. J. Hodgkinson & Co.

Our State Land Office is now active in obtaining non-mineral affidavits to accompany all applications for United States lands. These affidavits are now required before the approval of the title is given by the Interior Department at Washington. Because these affidavits did not accompany the applications, no lands have been approved for two and a half years-since the order of Commissioner Sparks requiring these affidavits. Through the last campaign the newspapers attached the odium to our late Attorney and Land Agent, George T. Gorman. It was asserted that he neglected his official duties, and because never having been a resident of Nevada he had no interest in its welfare. Thus injustice was done a worthy officer. Mr. Gorman was for nineteen years a resident of Nevada, and held not only the position of Clerk of Lincoln county, but held nearly every other official position in that county within the position in that county within the gift of the people. Neither as claimed did he neglect his official duties as Attorney and Land Agent, but rather spent of his private means in his efforts to get our lands approved. In every position he has held, Mr. Gorman has proved himself worthy of public trust, and of the confidence of the people. No, the fault was not Mr. Gorman's; the lands have not been approved, for with the light force in our State Land Office the requirements of the United States Land Office could not be complied with. It is believed, however, within a few months the approval of the 500,000 acres of land about which we have heard so much will be accomplished.

The Republic of France is in a singular predicament to-day. Even old and tried patriots dare not assume the responsibility of forming a new Ministry. Boulanger is an object of dread to the officials of France, and is also the idol of the people. The soldier is regarded by the masses as far superior to the civic authorities, and the soldier knows his strength. Is France to have another Napoleon? Has Boulanger the star of Toulon, the sun of Austerlitz and a Waterloo? Is a dictator to appear upon the scene of a cigar-maker. Four cases and and trample republican principles three deaths are reported so far. into the dust? The French have reached a crisis in their form of FOREIGN DISPATCHES Government. casimated that at least 200 persons lost their lives in the fire.

To-day 156 missing persons bave been inquired for by relatives. They are supposed to have perished in the flames. The bottom of the theater is flooded with water to the depth of five feet. Sixty bodies have been found floating in the water by the firemen.

LATER — The examination of the ruins of the Opera Comique, for the remains of the Victims, continues vigorously. Twenty bodies have been found in the dining-room. These victims had, all met their death by suffocation. The firemen saw other bodies but were unable to reach them. It is believed there are 150 more bodies in the ruins.

Though it has been in operation but a short time the company has shipped over \$200,000 in gold bullion from it, and the developments show five times that amount in sight. The Maysville Mine, about one mile distant from the Pittsburg, is shipping ore that goes over 500 ounces to the ton in silver and shows a good strong ledge. There shows a good strong ledge. There has been some ore shipped from the Eagle mine by tributers, and it is thought by many experienced min-ers that the property could be made to pay by proper management.

Language of the Eye.

An exchange says: "Black eyes denote, as a rule, rensuous character and an inconstant, fickle disposition. However, there are some

noted exceptions to this rule."
Such exceptions are quite numerous during a heated political campaign. Very large black eyes surmounted, in some instances, by a badly pulverized nose are not unqual or such occasions, but they usual on such occasions, but they are not always indicative of the disposition of the one who wears them. They more frequently denote the disposition, striking qualities and the science of some other fellow.

[VIRGIAIA GOLD MINES. A New Field for Enterprise. Editor Gazette:-A te v days ago I left Ford's Hotel, Richmond, for the gold mines of Buckingham county, Virginia. The distance by rail to Farmville is 80 miles. In going we passed over historic ground, the battle fields of Lynenburg, Seven Pines and Fair Oaks. We passed over the long bridge, since rebuilt, which was burnt by Lee's retreating forces just before the surreader, which took place not far distant at Appointttox Court House. On est ser side of this bridge are large mounds which were used as fortifications in that memorable campaign. At various points along the route similar places of historic interest were pointed out. Of all that part of Virginia waich was the battle fields of the Union and Confederate forces this section is of great est value to the student of history. The distance from Farmville to the gold mines is about tweaty-five miles. I say we, for in a carriage with Sambo Booker, a negro twenty-four years old, for a :river, I started from the former place. When I asked the livery man what the expense of the trip would be he replied, \$2-about one-fifth of what replied, \$2—about one-fifth of what the trip would cost in Nevada. While on the way there came up one of those hailstorms, so freque it in this country at this season of the year. After the storm I picked up nailstones as large as hickory nuts. We were on the outer edge of the storm, owing to the fact, as Sambo said, that he had been all the time praying to the good Lord to keep the storm away from us. In the dusk of the evening we reached the gold mines. In charge of these is Mr. Charles Helmau, formerly assayer of the Con. Virginia assay office at Virginia City, Nevada, and later occupying a similar position in the Lake Valley mines, New Mexico. His wife, was formerly Miss Georgie Wright, a most popular young lady of Gold Hill. Her mother, Mrs. Judge Wright, is also a member of the family. As a the storm away from us. In the

MINING DISTRICTS IN THE SOUTH. The company that Mr. Helman represents owns a series of mines, including 1,600 acres of land. Close to and nearly in front of the house is a large cut where it is said a company took out a million and a half of dollars. Until Mr. Helman's advent here, however, there was used no improved machinery, there was done no permanent prospecting. The deepest shaft sunk on this or any other mining property in this county is 200 feet. About eight miles from where Mr. Helman lives are what are known as the Buckingham mines. These, as early as 35 years ago, employed for a long time about 75 men. The mines are sail to have yielded millions, and of course without the help of our modern machinery or the knowledge of reducing orea now employed. Any one seeking safe investments of reducing ores now emfor capital would do well to read an advertisement in this issue under the head of "New To-day."

were introduced there would follow a mining boom in the southern country scarely paralleled even on the Pacific Coast. Every inducement here is offered to the miner. There is, plenty of wood and water. As compared with the \$14 per cord ing; wood cut and piled can be had at 75 cents per cord. The bighest price paid anywhere in the State to laborers is paid in the mines here—\$1 per day. The common laborer receives but 30 cents per day or from \$7 to \$12 per month. Servant girls receive not to exceed \$2 per month, the usual wages being \$1 50 per month. Living is as cheap in wood here is comparatively noth-ing; wood cut and piled can be had at 75 cents per cord. The bighest price paid anywhere in the State to
